eco nabuk

/ eco nubuk

l’ Eco nabuk è un articolo sintetico con le stesse caratteristiche sia estetiche che tattili delle pelli conciate. Di effetto estremamente naturale ha una superficie morbida e vellutata simile al nabuk. Mantiene inalterate durata e qualità semplicemente con acqua e sapone.

It’s a product made of innovative materials inspired by chrome-tanned leather, is a man-made product that reproduces the same aes-thetic and tactile characteristics of the nubuk. Eco nubuk maintains its long-lasting beauty by simply using soap and water.
